WŌN™

All-in-one coffee.

Coffee, creamer, protein and collagen in one portable stick.

Packaging concept in development

NORTH FORGE FOODS / FIRST RUN

WŌN™

My first test was simple. Would I actually drink this coffee every day?

I love a strong cup. I wanted something I could take with me, mix with water, and still look forward to drinking.

DONNY RODRIGUEZ / FOUNDER

First sip

THE FIRST TASTE TEST

Donny’s favorite cup from the first round.

The samples arrived. We tasted them. One blend stood out for its rich coffee flavor and body.

Next up is a session with the manufacturer to reproduce that cup and finalize the blend. Protein and collagen are in the plan. Sugar-free is a formulation requirement.

WŌN™

One box for four weeks

We’re planning 28 single-serve sticks for a desk drawer, a travel bag or an early shift. U.S. customers will be able to start with one box.

Final price and delivery timing follow production approval.

PLANNED FIRST RELEASE

WŌN™

What early backing would pay for

The blend	Ingredients and the manufacturer’s first commercial filling run.
The pack	Printed stick film, retail boxes and checks on the finished product.
The delivery	Freight to a U.S. warehouse, packing and shipping the first boxes.

HOW THE FIRST RUN COMES TOGETHER

WŌN™
